

GENERAL INFORMATION

The JP-100, JP-200 are advanced opto-mechanical mice with ultra high 250 DPI resolution. It's not necessary to require extra power or a special interface. The GI-MOUSE is 100% compatible with the standard mouse.

HARDWARE INSTALLATION

1. Turn off your computer.
 2. Insert the 9 Pin plug of the Mouse Pen to the mouse connector of your computer.
 3. Then turn on your computer, boot in your program.
- Please note that "Drive Program" is not needed.

CARE AND CLEANING

Clean the case and the cable of the mouse as often as you like by using warm water, regular soap or detergent, and a soft sponge or cloth. Never use alcohol, gasoline, or paint thinner.

*KEEP MOUSE BALL from dust and grease.

*KEEP mouse pad clean, avoid any stain on it.
